#### Notes about SFY14 contracted service units and SFY15 service units:

#### **Family Resource Centers Service Numbers:**

SFY15 target service unit increase is a result of both increased funding to strategy, and actual service numbers reported in both SFY13 and SFY14. Actual service numbers reported in prior years exceeded both target and contracted service units, so the target service unit was increased in SFY15 to more accurately reflect the "number of families served" by regional family resource centers.

#### **Family Support Children with Special Needs Service Numbers:**

SFY14 target service unit was based on 6 months of service. The funding and target service unit increases in SFY15 reflect annualization of the contract. In SFY15, additional target service units "number of children receiving screening", "number of developmental screenings conducted", "number of hearing screenings conducted," and "number of vision screenings conducted" have been added. A target service of unit of zero indicates that the strategy does not include that activity.

#### **Home Visitation Service Numbers:**

In SFY15, additional target service units "number of children receiving screening", "number of developmental screenings conducted", "number of hearing screenings conducted," and "number of vision screenings conducted" have been added. A target service of unit of zero indicates that the strategy does not include that activity.

#### **Parent Education Community-Based Training Service Numbers:**

Target service unit in SFY14 reflects an unduplicated count, while contracted service number reflects a duplicated count. For SFY15 target service units, the "number of adults completing a series" reflects an unduplicated count. For SFY15, the Regional Partnership Council targeted 500 adults completing a series; however, through the funding process, grantees returned with a proposed contract service unit of 285 adults completing a series.

#### **Food Security Service Numbers:**

Provider was able to double target service units in SFY15 without an increase in funding.

#### **Quality First Scholarships Service Numbers:**

Target service unit changes are due to the SFY15 QF model changes approved by the Board. Target service unit changed from SFY 14 to SFY 15 due to program model changes that affected the eligibility of programs to receive scholarships based upon star ratings and participant size. Additionally, in SFY15, the target service unit for Quality First Pre-K scholarships is included in the Quality First Scholarships service unit.

#### **Scholarships TEACH Service Numbers:**

In SFY 14 the targeted service unit for TEACH reflects the number of scholarships for statewide funded TEACH and additional TEACH, if funded by the region. While in SFY 15 the targeted service unit only reflects scholarships funded by the region. The Regional Council does fund additional TEACH scholarships above the statewide funded scholarships. The contracted service unit for SFY 14 was 30 scholarships and is 15 scholarships in SFY 15. The contracted service units are lower than the targeted service unit, reflecting actual scholarship usage.

#### **Oral Health Service Numbers:**

In SFY14, the target service unit "number of children receiving oral health screening" reflects an unduplicated count, while the contracted service number reflects a duplicated count. For SFY15 target service units reflects an unduplicated count.

#### **Nutrition/Obesity/Physical Activity Service Numbers:**

Model implemented is a train the trainer model that targeted only participating adults. Adults targeted are service providers and educators who provide services to children 0-5. Number of children directly receiving services from grantee is zero.

#### **Care Coordination / Medical Home Service Numbers:**

SFY14 target service unit was based on 6 months of service. The funding and target service unit increases in SFY15 reflect annualization of the contract. Additional target service units "number of families served (Health Insurance Enrollment Assistance)", "number of children receiving screening" and "number of developmental screenings conducted" reflect the required secondary strategy target service units. A target service of unit of zero indicates that the strategy does not include that activity.

New Strategies
SFY 2016 Funding Plan
New Proposed Strategies

#### Strategy: Kindergarten Transition

#### **Strategy Description**

Funds are used to develop and facilitate communities of practice to promote a partnership between local early care and education programs and school district kindergarten programs to ensure effective kindergarten transition.

#### **Strategy Narrative**

The intent of this promising practice strategy, Kindergarten Transition, is to use a community of practice model that brings together local groups of early care and education program providers with administrators and teachers from public elementary school sites offering kindergarten. The expected result is a collaborative and coordinated kindergarten transition approach and plan that increases the effectiveness of transition into kindergarten for children and families in local communities and further enhances the early childhood system in the region.

#### **Target Population Description**

The target population for this strategy is public and private early care and education programs and prekindergarten programs in local public school districts within communities. The targeted service unit of 11 communities is designed to match the number of elementary school districts within the region, which are mostly located in the rural areas, but also the school districts in Avondale and Buckeye.

SFY 2016 Target Service Units Proposed

#### Notes for SFY2016 -2018 proposed targets:

#### **Family Resource Centers Service Numbers:**

The Southwest Maricopa Regional Partnership Council has chosen not to fund the Navigator or the Parenting Workshop components of the Family Resource Center strategy, thus there is no proposed targeted service number for "Number of families served by family navigators."

#### **Quality First Coaching and incentives including Technical Assistance Service Numbers:**

The Southwest Maricopa Regional Council does not fund Rating Only participation.

#### **Child Care Health Consultation Service Numbers:**

The Southwest Maricopa region does not fund Child Care Health Consultation outside of the Quality First bundle, thus there are no proposed targeted service numbers for "Number of Non-Quality First centers/homes" and "Number of Parenting Workshops held".
